* If $\Gamma \vdash a \text{ is a } \tau$, then it is easy to see the only expression τ with $\Gamma \vdash \tau$ is a .

¹¹ For $\Gamma = \Gamma_0(N)$ see, e.g., Diamond and Flachsmeyer, Chap. 1 or [14]. Since Γ is less than 20 and α is 20

[illegible]

It is to be noted that the Government has not put its total on independent of the total number of the appropriate to the country.
